

The Final Term Exam in English

Part one: (15pts)

Read the text carefully then do the activities

Text:

The huge and powerful Hurricane Katrina blasted into the southern Gulf Coast states of the USA with its full and mighty force on Monday. The lethal storm may have left hundreds dead and has caused catastrophic damage. Large areas of New Orleans are under water. Thousands of homes are without electricity and safe drinking water. President George W. Bush has declared a state of emergency. He has promised financial aid to help victims and to get the whole region back on its feet.

The economic cost of the hurricane could be the highest in US history. The human cost is also continuing to rise. Many predict the death toll will be higher than the 256 killed by Hurricane Camille in 1969. Rescue services are experiencing difficulties as they try to save lives. They have to negotiate live power cables, toppled trees and dangerous debris. Louisiana Governor Kathleen Blanco told in a news conference: "The devastation is greater than our worst fears. It's totally overwhelming."
